

# Visual and Interaction Design Requirements

Version 0.1

## Key Features

- Webapp + Alexa Skill
- Webapp only allows the Amazon Echo owner to manage task information
- Can not be used as a stand-alone app

Prepared By

Team Go!

---

## Frontend Components

- Login / Sign up
  - Standard email password sign in. Use Firebase's authentication service
- Roommates tab
  - List View displaying current added housemates (Empty if none)
  - Add new housemate
  - Delete housemates
- Tasks tab
  - Assign tasks to roommates
- The mockups for these components can be found later in the document.

## Backend Components

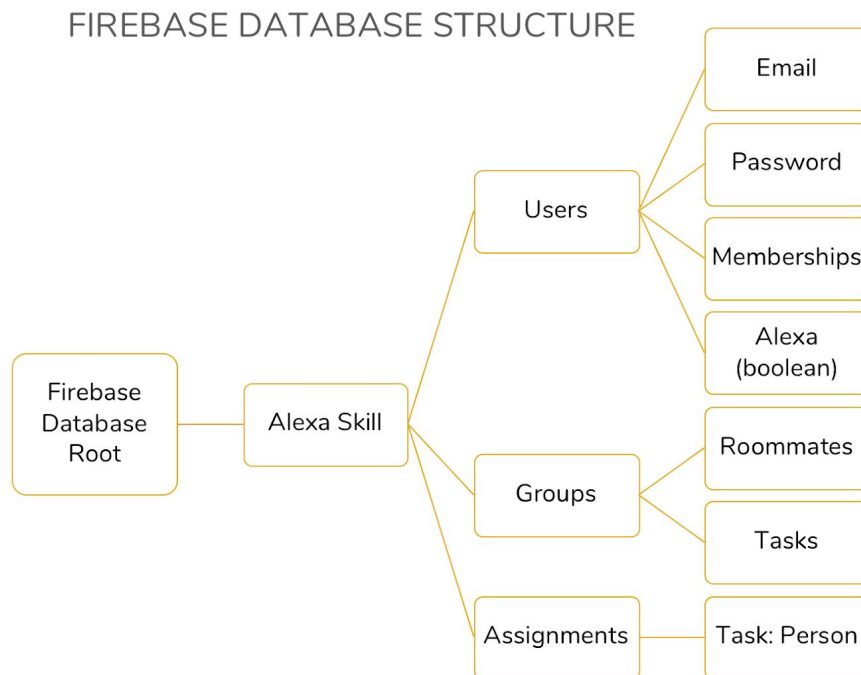

Figure 1: Data flow between different components of the app

- Use Firebase for user authentication; use Firebase's email & password authentication function.
- Write roommate and task assignment information to Firebase using user input from the webapp.
- Read Firebase database from the skill's lambda function and update the information as per the voice interaction model.
- Refer to *Figure 2* for Firebase database design

*Figure 2: Firebase database structure to store user and task information*

### Alexa Skill Requirements

- Activation
  - Utterance: "Alexa, open o'hana"
  - Response: "Welcome to o'hana"
  - Backend: Use the Echo device ID to retrieve user and task information from Firebase database.
- Get tasks
  - Use case 1:
    - Utterance: "Alexa, what is the next task for <person's name>?"
      - **BACK-END:** Recognize name and pull individual data from Firebase
    - Response: "<person's name>'s is assigned to <task>"

- Backend: Branch into the assignments data, find the person with the given name and retrieve the task assigned to them.
  - Use case 2: If the user doesn't have any tasks assigned to them.
    - Response 3: "<person's name> does not have any tasks."
- Mark tasks as complete
  - Utterance: "Alexa, mark \_\_\_\_'s task as done"
  - Response: "Ok! I marked the task \_\_\_\_ as done. Would you like to know your next task?"
  - Backend: Find and recognize task, then mark it as completed in the database. Rotate task to next person in list of users.
- Unregistered utterances
  - Response: "I'm sorry, I didn't understand"
  - If occurs more than 2 times
    - Utterance: "Would you like to know the available commands?"
    - If response is "Yes"
      - Utterance: "Try saying: What are the tasks assigned to Ethan?"
- Nice to have
  - Filter words flagged as inappropriate
  - Multiple ways to phrase a command

## Version 2 (Planned for Future)

- Webapp as a stand-alone app; or can be used to complement the skill.
- All roommates will be able to login to the app and manage tasks.

---

## Visual Design of the Webapp

\*Dimension percentage calculated using 1920 x 973 window\*

\*Mobile percentage calculated using 720x1280 window\*

\*aspect ratio below 406\*925 is not supported\*

\*app can be used for one household per account -- no matter who the account user, roommate list and task list will start empty\*

## Global Elements

- Webapp background gradient: top left to bottom right -- #73C849 to # 373B44
- Font: Nunito (otherwise specified)
- Box shadows colors are #000000 unless specified
- Location is specified with left and top side of the object in a square form from left for both current object and target object
- Display name, task name, and roommate name is limited to 15 characters
- Unless specified, all color opacity is 100%
- Upper Bar (UB): Will stay fixed when scrolled (No upper bar in home page)
  - Bar Color: #595959
  - Bar Dimension: 100% Width 9.1% Height
  - Logo : non-clickable
    - .png file provided: “ohana\_logo.png”
    - Location: Left side of the logo should be 3.3% away from x=0. Middle point of logo height should be aligned horizontally with middle point of UB height
  - User Info (hello [name]!)
    - “hello” and “!” Text: non-clickable
      - Font: Quicksand
      - Thickness: Medium
      - Size: 39% of UB height
      - Color: #FFFFFF
      - Location: x: 86% of width of W, y: middle height of UB height
    - Name is clickable and underlined, and is always lowercase
      - If clicked display logout pop-up (figure signout)
        - Dimension:
          - Width: 9% of W height
          - Height: 3% of W height
          - Inner box:
            - Height: 75% of the outer box height
            - Width: 80% of the outer box width
            - Stroke:
              - Color: #595959

- 0.5% of W height
- Box shadow:
  - X and Y: 2px
  - Blur: 5px
- Font: Quicksand
- Font size: 1.3% of W height
- Font weight: 200
- Color: #595959
- Position: 1% W height below the name, right side of the box is always on the right side of the name
  - Font and inner box is in the center of the outer box
- Mobile
  - Use same ratio

Figure signout

## 0. Home Page (Figure 0)

- No UB
- slogan
  - Font weight: 200
  - Font color: #FFFFFF
  - “Welcome to”
    - Font size: 7% of W height
    - Gap between top of the website to top of slogan: 10% of W height
    - Gap between left of the W to left of slogan: 6% of W height
    - O’hana logo
      - Provided as “ohana\_logo.png”
      - Height: 10% of W height
      - Width: 30% of W height

- Horizontally aligned to “Welcome to” (as shown in figure 0)
    - Margin in between “to” and image is 1% of W height
  - “A reimagined”
    - Font size: 3.4% of W height
    - Font color: #FFFFFF
    - Gap between left of the W to left of slogan: 35% of W height
    - Top gap between “welcome...” and “a reimagined...”: 0%
  - “With 3 simple”
    - Font size, font color, top gap same as “a reimagined” part
    - Gap between left of the W to left of slogan: 55% of W height
    - “3”
      - Font size: 8% of W height
      - Font weight: 400
- Boxes with graphics
  - Horizontal gap between” 3 steps” and the boxes: 15% of W height
  - When a mouse hovers over each box, figure 0.1, 0.2, 0.3 are shown and closes if mouse if no other on the box.
    - Transition:
      - Top margin of the boxes between “3 steps”: 5 of W height
      - Height of the box will be 39% of w height
      - Timing
        - Margin transition: 1s
        - Height: 0.4s
        - Texts: 2s
  - Images provided
    - Centered horizontally and vertically
  - Box size:
    - Height: 26% of W height
    - Width: 35% of W height
    - Left and right margin: 1% of W height
  - Box shadow:
    - X and y shadow position: 3px
    - Blur: 8px
    - Color: #000000
  - Box edge roundness: 5% of w height
  - Font: #FFFFFF
  - Font size of descriptions (figure 0.1, 0.2, 0.3): 2% of w height
  - Font weight: 400
  - Font size of “\*note”: 1.2% of W height
  - Font weight of “\*note”: 200
  - Gap between image and description: 0% (image has the gap which will produce the figure 0.1, 0.2, 0.3)
  - Gap between description and “\*notes”: 2% of W height

- Add user -- the final image file will have “roommates” instead of “user” (figure 0.1)
  - Color: #2E765D
- Add task (figure 0.2)
  - Color: #2E926F
- Add alexa (figure 0.3)
  - Color: #4AA987
- Gap between each images: base 2% of W height and max 12% of W height
- “Let’s get started”
  - Hovering over any part of the text underlines the whole text
    - Click of any part of the text directs the user to sign in page
  - Position:
    - Horizontal center of the website
    - Gap between bottom of image and the top of text: 15% of W height
  - Font:
    - Font weight: 200
    - Font size: 3% of W height
    - Sign in
      - Font weight: 400
- Mobile override for max aspect ratio 1019\*887 (figure 0.4 & 0.4.1 -- layout reference only)
  - Slogan text:
    - All three slogans Horizontal center of the screen
    - “Welcome”
      - Font size: 6% of W height
    - “A reimagined” & “with 3”
      - Font size: 3% of W height
      - “3”
        - Font size: 7% of W height
  - Boxes with graphics
    - Centered Horizontally to the screen
    - Gap between boxes: 2.7% of W height
  - Transition (figure 0.4.1):
    - Width: 90% of box width
    - Height stays the same
    - Directions and note on the left of the graphics
      - Font size: 4% of website width
      - Horizontal center to the box it is located in
      - Gap between right of text to right of the box: 1% of website width
    - Margin 1s, width 0.2s, color 3s
  - “Let’s start”
    - Gap between bottom of the graphics to the text: 15% of website width
    - Gap between bottom of the text to the website bottom: 5% of website width

Figure 0

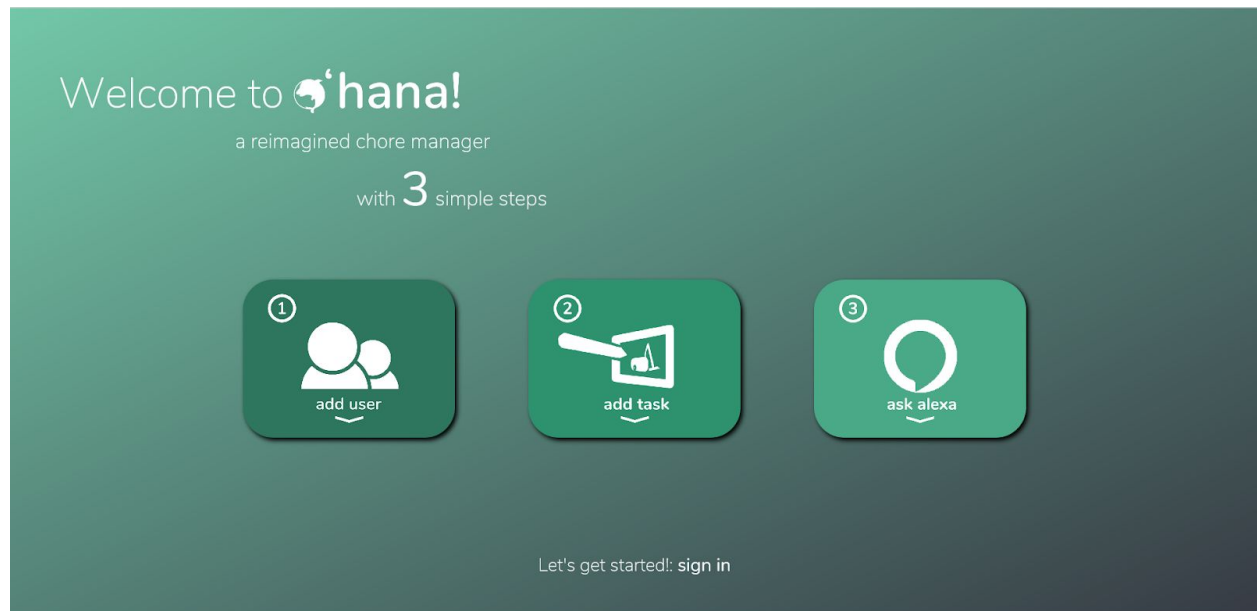

Figure 0.1

Figure 0.2

Figure 0.3

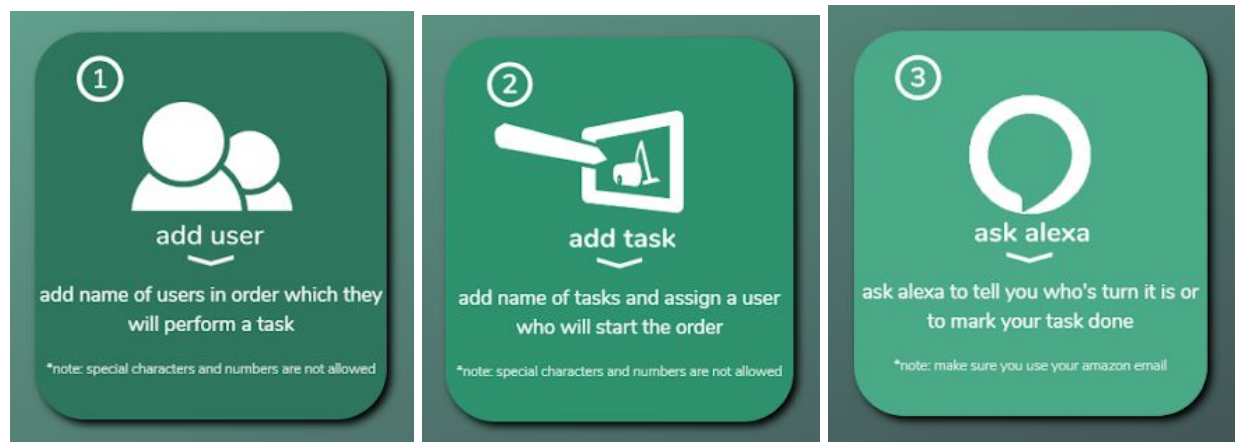

Figure 0.4 (layout reference only)

Figure 0.4.1 (layout reference only)

## 1. Log in / Sign up

- Logo in UB of the mockup should be only used as a reference for layout. For accurate representation of logo in UB, refer to figure 2.1. (LOGO ONLY)
- Global Elements within Log in/Sign up page (figure 1.1, 1.2)
  - Font Thickness: 200
  - “Sign in” & “sign up” slogan
    - Sign in Location: horizontal center, 30% of W height away from y = 0 (figure 1.1)
    - Sign up Location: horizontal center, 20% of W height away from y = 0 (figure 1.2)
    - Color: #FFFFFF
    - Font
      - Regular
        - Font size: Size: 3.4% of height of the W

- Font weight: 200
  - Bolded (“sign in”, “sign up”, “amazon”)
    - Font size: Size: 5% of height of the W
    - Font weight: 400
- Green log in / sign up box (GB)
  - Dimension: 45% of W width, 34.5% of W height
  - Color: #595959
  - Rounded edge:
    - top left and bottom right: 2% of W height
    - top right and bottom left: 13% of W height
  - Box shadow
    - X and Y: 3px
    - Blur: 8px
    -
  - Location: horizontal and vertical center
  - Credential text:
    - Font-size: 2.7% of W height
    - Font weight: 200
    - No gap between text and white box
    - Left aligned with white box
- Log In/ sign up button
  - sign in/ sign up Box: When clicked (box and text in the box), proceed to roommate/task page (figure 2.1)
    - Dimension:
      - Width: 15% of W height
      - Height: 4% of W height
    - Location: Middle of the GB width, 3% of W height below “password” or “re-enter password” box
    - Text:
      - Color: #595959
      - Size: 3% of W height

- Location: middle of width and height of white box
- Log in / Sign Up text below the sign in/up box: When clicked, proceed to figure 1.2 from figure 1.1 or vice versa depending on which state the page is in
  - Text
    - Color: #FFFFFF
    - Size: 1.8% of W height
    - Only sign in/up text is Underlined
  - Location:
    - 5% of W height apart from Sign in Box (figure 1.2)
    - 7% of W height apart from Sign up Box (figure 1.1)
- If there is any error such as invalid email, password, etc.,
  - Error message specified in figure 2.1.4.2 with wordings “invalid email address or wrong password”
  - Position: 1% of W height above GB
- 1.1 Sign In: Default stage
  - White Box below to username, password, and email credential (WBC)
    - Is a text entry box that accepts characters, numbers, and special characters
    - Input text will start at the left side of the box to right
    - Dimension: 80% of GB width, 4% of W height
    - Location:
      - Username Box: 0% below text, 10% of GB from left of GB
      - Gap between credential texts and top of the GB or white box above: 9% of GB height
- 1.2 Sign Up: 1.1 becomes 1.2 when Underlined Text below White Box is clicked
  - Once clicked, if there are no errors, proceed to 2.1 roommate page
  - Display name does accept special characters and numbers
  - WBC & Texts below WBC
    - See 1.1 Log in WBC specification, behaves in a same way

- Gap between credential texts and top of the GB or white box above: 5% of GB height
- Dimension:
  - Width: 45% of W height
  - Height: 50% of W height
- Slogan
  - Gap between two slogan line: 0%
  - Lower sentence text:
    - Regular font:
      - Font size: 1.5% of W height
      - Font weight: 200
    - Bolded font (“Not” “Amazon”):
      - Font size: 1.8% of W height
      - Font weight: 400
- No mobile override

Figure 1.1

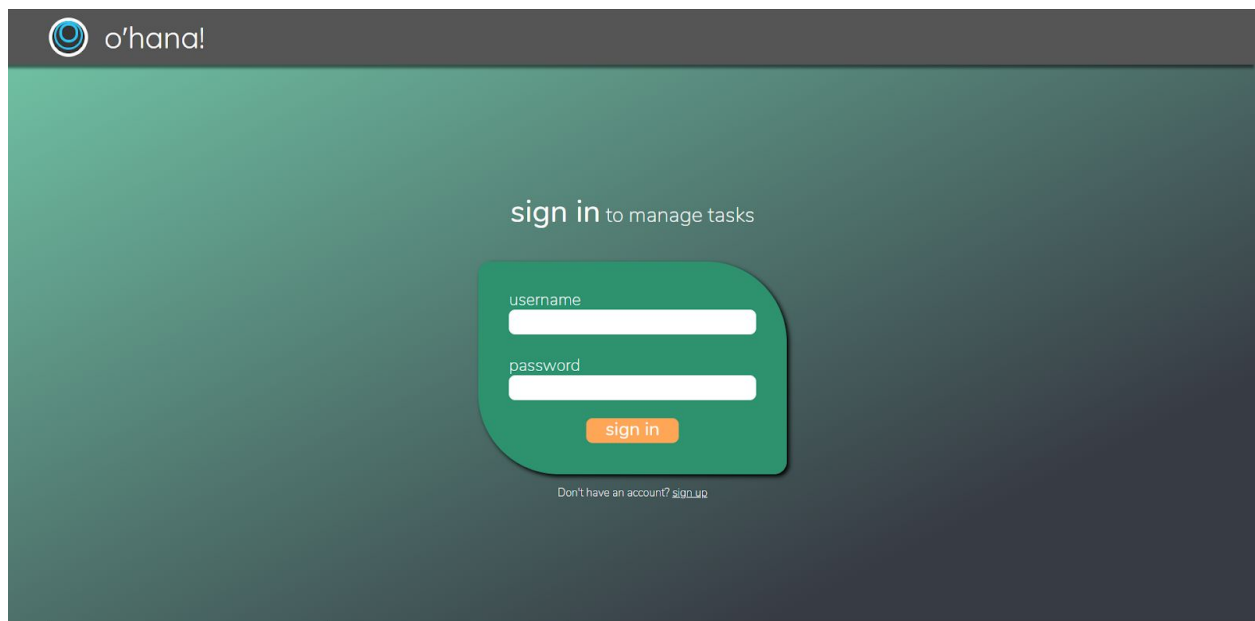

Figure 1.2

The screenshot shows a web interface for 'o'hana!'. At the top left is the logo, a blue circle with a white 'o' inside. The header is a dark gray bar with the text 'o'hana!'. The main content area has a green-to-blue gradient background. Centered on the page is the text 'sign up with Amazon email' in white. Below this, in smaller white text, it says 'alexa will NOT work if you don't sign up with your AMAZON email'. A white rounded rectangle contains four input fields: 'e-mail', 'display name', 'password', and 're-enter password'. Below these fields is an orange button with the text 'sign up'. At the bottom of the white rectangle, in small gray text, it says 'Already have an account? sign in'.

## 2. Tasks/roommates -- No new page when switching between two

- States change only when an icon that is grayed out on the left side (not including texts below them) (i.e. roommates icon in 2.1, tasks icon in 2.2) is clicked
- Changes to roommates and tasks are updated automatically
- State change does not have a transition
- Roommates/Tasks icon and UB will not move when scrolled
- Roommates/task icon
  - Black circle:
    - Location: X: 7% px Y: 25.1%px
    - Dimension: 21.8% of W width
    - Color: #595959
    - Effect: Drop Shadow
      - Radius: 1.5% of W height
      - Offset: 0px, 1.5% of W height
  - Skyblue circle

- Location: Origin of black circle
  - Dimension: 20.3% of W width
  - Color: #31C4F3
- Skyblue circle
  - Location: Origin of black circle
  - Dimension: 18.7% of W width
  - Color: #FFFFFF
- Roommates/tasks text
  - Size: 61.6% of W height
  - Thickness: Black
  - Location; Middle of circle vertically, 1.2% gap between text and outer icon circle (orange background gap between Roommates And icon/ tasks and icon)
- Roommates Icon graphic
  - Location: Origin of the white circle
  - Dimension: 64% of White Circle dimension
  - Image file provided: userpi.png
- Tasks Icon graphic
  - Location: Middle of the graphic should be origin of the white circle
  - Dimension:
    - 100% of width of the innermost circle
  - Image file provided: taskpi.png
- For tasks icon in 2.1 or roommates icon in 2.2
  - 66.7% size reduction on task and icon
  - 35% less shadow effect
  - Location: 61.4% W height
  - Semi-graying out
    - Color: #323232
    - Opacity: 39%
- Roommate box and task box (Figure 2.1 & 2.2)

- Once boxes start to overflow, only the boxes should be able to be scrolled
    - First box should always be stopped at the starting location when boxes are scrolled downwards
    - Last box should always be stopped at the bottom of the screen with gap of 3% of W height in between the bottom of the box and the bottom of the screen
  - Starting Location: 25% of W height from the top  $y=0$
  - Gap between each boxes: 4% of W height
  - Box shadow:
    - X and Y: 3px
    - Blur: 8px
- More option for roommate box and task box (figure 2.1.2)
  - Applies to roommate box in roommate tab and task box in task tab; excludes roommate box in task tab
  - Image file provided: more.png
  - Dimension: img height covers the whole height of the white portion of the box
  - Position: 1% of W height from the right of the white box
  - Once clicked, go to figure 2.1.3
  - Figure 2.1.3
    - Cover the white box with #EEEEEE above the existing box to add “glass” effect
    - The two icons are 80% of the box height and are separated by 3% of W height
    - Icon for edit and delete is be provided
      - Edit: once clicked bring up (replace the current box) the “type here” box with current data inside, should behave same as normal “type here”
      - Delete: delete the box and reformat the below boxes to match the margin specification between boxes
- 2.1 Roommates
  - “Who are the... & list users in or...” (final version should replace users to roommates)

- Text:
  - Size: upper text: 41.1% of W height, lower text: 30.8% of W height
  - Thickness: Black
- Location: The middle of the texts should be the middle of the icon
- Roommate box
  - Dimension: 14.7% of W width, 5.2% of W height
  - Stroke: Center stroke with 2% of W height with rounded edge of 4% of W height
    - Color: #31C4F3
  - Color: #FFFFFF
  - Add circle:
    - Once clicked, the circle state changes to (Figure 2.1.4.1)
      -
    - Dimension: 4.2% of W height
    - Image file provided: add\_circle.png
    - Location:
      - Horizontally center to name boxes
      - Gap between the roommate box and add button: 4% of W height
  - Roommate Box:
    - Does not respond to any inputs
    - Text: applies to task bar in section 2.2 too
      - Size: 60% of box height
      - Thickness: bold
      - Location: Middle of the box vertically and horizontally
    - “Type here” Box: This is the only box on the screen when there is no data on the roommates (figure 2.1.4.1)
      - Otherwise, this will only show up once the user clicks the “+” button on Figure 2.1 which will always be the bottom most element when there is at least one user/task in respective tabs

- Typeable; accepts inputs from left to right, inputted texts are 60% of box height like normal roommate/task box fonts
- Color: #BCBCBC
- Dimension: Same basic box size and stroke size with normal user box however,
  - Double the height of normal box for the typable overall height
  - White color is #FFFFFF
- Displayed Text:
  - “type here”
    - Size: 75% of the box height
    - Thickness: Bold
    - Color: #8B8B8B
  - “Add and cancel”
    - Vertically center of the white portion of the box
    - As a group, it should be horizontally center to the roommate box
    - Gap between the two is 4% of W height
    - Font size: 65% of box height
    - Cancel (if clicked return to original state) color: #FF4D4D
    - Thickness: bold
    - Add color (once clicked, replace the current name to newly inputted name):
      - When unavailable: 8D8D8D
      - When available (if input is valid): #31C4F3 (figure 2.1.4.3)
  - Error message (displayed if special character or number is detected in the input, should scan the input every time the user types in an input; if duplicate name is detected during scan, display “\*name already taken” ) (figure 2.1.4.2)

- Color: #FF4D4D
  - Thickness: 200
  - Vertically center of the box
  - Gap between bottom of “type here” box and the error message: 3% of W height
- Once a user clicks on it, the “type here” text will disappear and the #BCBCBC Font color will be #595959
- 2.1.2 Edit and delete menu
  - Dimension: 5.9% of W width, 7.6% of W height
  - Color: #FFFFFF
  - Location: Right side should be on the left edge of the name box and in the middle of name box height vertically
  - Stroke: inside 0.5% of W height
    - Color: #31C4F3
  - Onclick edit, bring up text box with name already inputted
  - Onclick delete, remove the name box and reformat the box layout (boxes below the name will move up by 10% of W height)
- 2.2 Tasks
  - Texts next to the tab icon
    - Same requirements as 2.1 but font size is only upper text
  - Task box
    - Has same dimensions, fonts, and edit/delete/add as roommate name and type here box with modifications indicated below
    - Icons and behaviors are identical to name box on 2.1
      - Box covering both task and name box
        - Same stroke dimension as roommate box in 2.1
        - Dimension: covers both boxes as can be seen in figure 2.2. With gap of between 4% of W height
        - Position: Same starting height with roommate bar in section 2.1 roommates
          - Right side of the bar should be 21% of W height away from right side of the screen
    - Location: 57% of W width, same height as name box on 2.1

- Roommate Box
  - Has same dimensions, and fonts as taskname and type here box
  - Location: 74% of W width, same height as Task box
  - Isosceles triangle: drop down menu; when clicked, display a dropdown menu on the existing roommates
    - Flips 180 degrees when drop down menu is activated
  - Drop down menu:
    - Default bootstrap dropdown (Figure 2.2.2 may not render the bootstrap dropdown correctly)
    - Names are 30% of font size apart from each other
    - Display all names in order separately as a drop down menu (2.2.2)
    - When clicked, replace the name on the box with the one that was clicked
- “Type here” box and edit box (figure 2.2.3)
  - Look at 2.1 for specification
    - “Type here” box overridden specification
      - “Cancel” and “add” should be horizontally center to task box and roommate box respectively
- “Add” + button:
  - See 2.1 specification
  - Center of the grouping of task and roommate box
- Mobile override for max aspect ratio 1019\*887 (figure 2.1.5 & 2.2.3)
  - Slogan text:
    - Completely hidden
  - Tabs
    - Grouping of the two tabs are center of the width of the website
    - Bigger tab (current tab that displays the state)
      - Height/weight: 18.6% of W height
      - Use proper ratio conversion for rest of the dimensions including “inactive” tab
      - Grouping of two tabs should be 51.7% of W width
        - Each circle should touch the “edge” of the grouping dimension
  - “Roommates” test for tab graphics

- Same gap, reverted to bottom of the tab
- Roommates and tasks bars
  - First box is 2.5% of W height below the “tasks” or “roommates”, which ever tab the screen is in
  - Each margin between two boxes is 4% of W height
  - Boxes are horizontally center to the screen
  - Dimension for a box (ex: roommate box)
    - Width: 40% of W width
    - Height: 3% of W height
    - Margin between task and roommate (figure 2.2.3)
      - 2% of W width

Figure 2.1

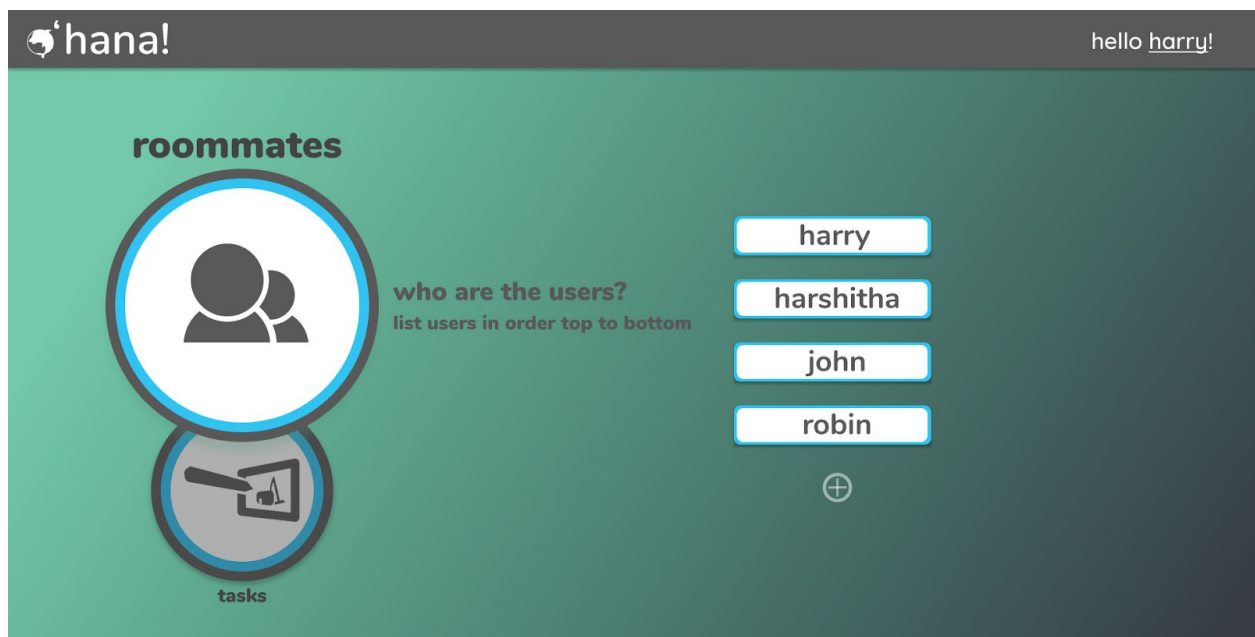

Figure 2.1.2 -- hover over to bring up “more button”

Figure 2.1.3

Figure 2.1.4.1

Figure 2.1.4.2

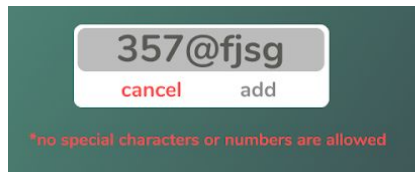

Figure 2.1.4.3

Figure 2.1.5

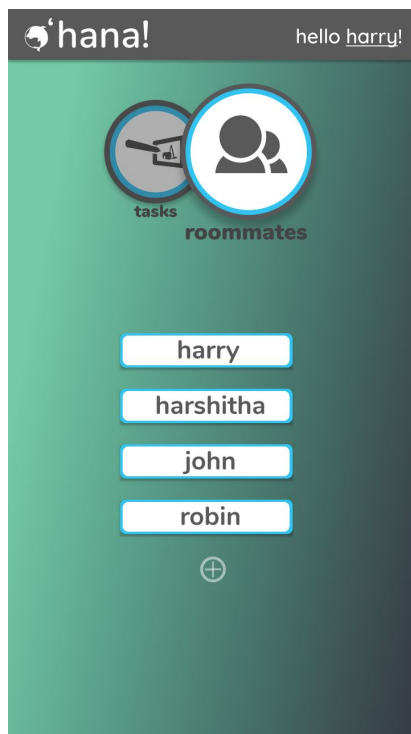

Figure 2.2

The screenshot shows the 'hana!' app interface. At the top left is the logo 'hana!' and at the top right is the text 'hello harry!'. The main area has a green background. On the left, there's a 'tasks' section with a circular icon of a hand pointing at a screen. Below it is a 'roommates' section with a circular icon of two people. In the center, the text 'what will you do?' and 'who will start the task?' is displayed. On the right, there's a list of tasks, each with a text input field and a dropdown menu for assigning a roommate.

Task	Roommate
dish	harry ▼
vaccum	harshitha ▼
toilet paper	john ▼
towel	harry ▼
battery	harry ▼
food	harry ▼

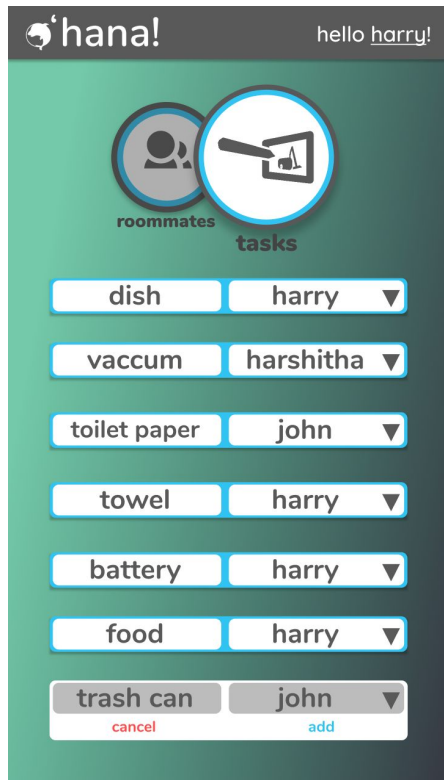

Figure 2.2.2

This screenshot shows the same 'hana!' app interface as Figure 2.2, but with a dropdown menu open for the 'dish' task. The dropdown menu lists the available roommates: 'harry', 'harshitha', 'john', and 'robin'. The 'harry' option is currently selected. Below the task list, there is a plus sign icon (+).

Task	Roommate
laundry	harry ▲
yard	harry ▼
dish	harry ▼
dish	harry ▼
dish	harry ▼

Roommates in dropdown: harry, harshitha, john, robin

Figure 2.2.3

---

#### Alexa Skill:

- Voice command activation (Must-Have)
  - Utterance: "Alexa, open o'hana"
  - Response: "Welcome to o'hana"
- Read off tasks for given user when prompted (Must-Have)
  - Utterance: "Alexa, what is the next task for (USER NAME) ?"
    - **BACK-END:** Recognize name and pull **user** data from Firebase (Refer to database section)
  - Response: "(USER NAME)'s task is to (TASK)"
    - **BACK-END:** Pull tasklist from **user** data and return first task in the list in order received from database (Refer to database section)
- Mark a given task complete when prompted (Must-Have)
  - Utterance: "Alexa, mark (USER NAME)'s task as done"

- Response: “Ok! I marked (USER NAME)’s task as done”
  - **BACK-END:** Save given user’s first task as done in database (Refer to database section)
- Unregistered responses (Must-Have)
  - Response: “I’m sorry, I didn’t understand”
    - If occurs more than 2 times consecutively,
      - Utterance: “Would you like to know the available commands?”
      - If response is “Yes” / “Sure”
        - Utterance: “You can ask for a users tasks with Alexa, what is the next task for me, or you can mark tasks as done with Alexa, mark my task as done”
- Filter inappropriate words (Nice-to-have)
- Integrate phonetic input on website for difficult to pronounce names (Nice-to-Have)
  - ex.) Name: Amanda Seyfried
  - Phonetic Input (Read by Alexa): Uh-MAN-duh SIGH-fred
- Perform User Research on common methods people ask for tasks and integrate into Voice Commands (Nice-to-have)
- If prompted a second time, (Nice-to-have)
  - Utterance: “What’s next? / What else? / What after?”
  - Response 2: “(USER NAME)’s next task is to (TASK)”
  - **BACK-END:** Pull tasklist from individual data and return second task in order received from database (continue for each task left in list if prompted) (Refer to database section)

#### Version 2:

- Reordering user order in a group
- Individual user ordering for each task
